## Enhanced HCP Sanction Monitoring

SanctionID from MedPro Systems empowers customers to track Federal and State sanctions and disciplinary actions against Healthcare Professional (HCPs) in their universe, to minimize risk and drive informed compliance decisions.

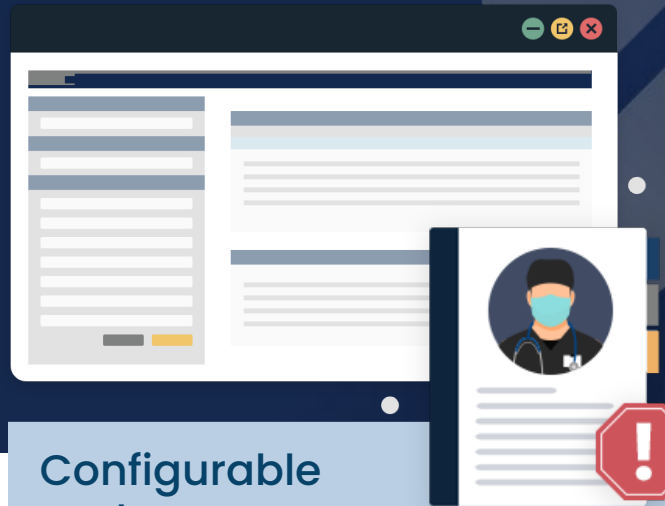

Powered by MedProID®, users can quickly search authoritative data from all Federal and State sanction sources including OIG, FDA, EPLS/GSA and State Board sanction lists for any active or historical actions levied against an HCP in the US.

### Configurable Updates

Receive sanction updates by all HCPs in your CRM/MDM universe or prioritize by VIP commercial targets as defined by your business rules.

### Flexible Search Options

Sort via Federal and State Sanction types, disciplinary actions, HCP name, address(es), SLN, NPI, and more.

*This is outstanding and truly appreciated.  
Deep dark water at first but gets better when  
you have a lifeboat like MedPro!*
