

# Partnerships

## Become a MedPro Systems DirectID Partner

### Why Partner

MedPro Systems is the premier provider of licensing data and compliance services in the Life Sciences industry, supporting hundreds of pharmaceutical and medical device manufacturers, distributors, and other organizations that engage healthcare providers & organizations.

We are a trusted partner that delivers on our commitments and are actively seeking organizations with a similar mindset to support our customers when they need other, high-value services. Our goal is to integrate and partner with software vendors that our customers and prospects rely on each day, via our DirectID partner program. To drive business and compliance, your customers need reliable and accurate data and deserve the exceptional capabilities and support that MedPro is known for.

### Technical Capabilities

Integrate in the way that makes the most sense for your needs. MedPro offers both real-time and batch capabilities. Your technical teams will have access to MedPro's SFTP or REST APIs and direct contacts to business and technical support throughout your partnership.

### Become a DirectID Partner

If your company is being asked to integrate MedPro's industry leading healthcare practitioner or healthcare organization database into your software solution, please contact us today.

### Use Cases

- ✓ **ERP / Order Management** – Validating ship-to and sold-to partners at the time an order is placed.
- ✓ **Supplier Master** – Validate current and potential future suppliers and monitor for licensing changes that may impact supply chain.
- ✓ **CRM / Customer Master / MDM** – Enrich and maintain key demographic details on HCP customers and validate licensure for ongoing readiness for regulatory compliance from PDMA, Stark, Transparency Reporting (Sunshine Act / Open Payments), and more.
- ✓ **HCP Engagement** – Know potential partners before you engage and support strong compliance processes with exceptional, complete data.

*We LOVE working with MedPro! The team is so responsive and collaborative. We wish all of our partners were like MedPro!*
